MEMORANDUM FOR DIRECTORS OF DEFENSE AGENCIES

DEPUTY FOR ACQUISITION AND BUSINESS MANAGEMENT,
ASN(RD&A)/ABM

DEPUTY ASSISTANT SECRETARY OF THE AIR FORCE
(CONTRACTING), SAF/AQC

DEPUTY ASSISTANT SECRETARY OF THE ARMY (PROCUREMENT)
EXECUTIVE DIRECTOR FOR PROCUREMENT MANAGEMENT
(DLSC/DLA)

SUBJECT: Class Deviation--Special Tooling

This supersedes the extension of a class deviation issued on September 22, 1998, under DAR Tracking Number 98-00011, Subject: Extension to Class Deviation--Special Tooling.

Effective immediately, all Department of Defense contracting activities shall use the April 1984 edition of the Special Tooling clause and its related prescriptive language (attached) in lieu of the clause at Federal Acquisition Regulation (FAR) 52.245-17 and its prescriptive language at 45.306-5. I also waive that portion of the Government Property (Fixed-Price Contracts) clause at FAR 52.245-2 that states that special tooling is subject to title provisions in the Special Tooling clause. This waiver is necessary because the 1984 edition of the Special Tooling clause does not contain title provisions.

This class deviation is effective until the FAR is revised.

Attachment:
As stated

Eleanor R. Spector
Director, Defense Procurement

cc: DSMC, Ft. Belvoir

ENCLOSURE(1)

45.305 Additional clauses for facilities contracts.

(a)(1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.245-17, Special Tooling, in solicitations and contracts when: a fixed-price contract is contemplated, the contracting officer decides (see 45.306-2(d)) to acquire rights to the contractor's special tooling, and it is not practical to identify the special tooling required.

(2) If the Government does not intend to acquire special tooling from subcontractors and an appropriate price reduction is obtained, the contracting officer shall use the clause with its Alternate I.

52.245-17 Special Tooling.

As prescribed in 45.305(a)(1), when contracting by negotiation, insert the following clause in solicitations and contracts when a fixed-price contract is contemplated, the contracting officer decides to acquire rights to the contractor's special tooling, and it is not practical to identify the special tooling required:

SPECIAL TOOLING (APR 1984) (DEVIATION)

(a) *Definition.* "Special tooling" means jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, all components of these items, and replacement of these items, that are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or performing particular services. It does not include material, special test equipment, facilities (except foundations and similar improvements necessary for installing special tooling), general or special machine tools, or similar capital items. Special tooling, for the purpose of this clause, does not include any item acquired by the Contractor before the effective date of this contract, or replacement of such items, whether or not altered or adapted for use in performing this contract, or items specifically excluded by the Schedule of this contract.

(b) *Use of special tooling.* The Contractor agrees to use the special tooling only in performing this contract or as otherwise approved by the Contracting Officer.

(c) *Initial list of special tooling.* If the Contracting Officer so requests, the Contractor shall furnish the Government an initial list of all special tooling acquired or manufactured by the Contractor for performing this contract (but see paragraph (d) for tooling that has become obsolete). The list shall specify the nomenclature, tool number, related product part number (or service

performed), and unit or group cost of the special tooling. The list shall be furnished within 60 days after delivery of the first production and item under this contract unless a later date is prescribed.

(d) *Changes in design.* Changes in the design or specifications of the end items being produced under this contract may affect the interchangeability of end item parts. In such an event, unless otherwise agreed to by the Contracting Officer, the Contractor shall notify the Contracting Officer of any part not interchangeable with a new or superseding part. Pending disposition instructions, such usable tooling shall be retained and maintained by the Contractor.

(e) *Contractor's offer to retain special tooling.* The Contractor may indicate a desire to retain certain items of special tooling at the time it furnishes a list or notification pursuant to paragraphs (c), (d), or (h) of this clause. The Contractor shall furnish a written offer designating those items that it wishes to retain by specifically listing the items or by listing the particular products, parts, or services for which the items were used or designed. The offer shall be made on one of the following bases:

(1) An amount shall be offered for retention of the items free of any Government interest. This amount should ordinarily not be less than the current fair value of the items, considering among other things, the value of the items to the Contractor for use in future work.

(2) Retention may be requested for a limited period of time and under terms as may be agreed to by the Government and the Contractor. This temporary retention is subject to final disposition pursuant to paragraph (i) of this clause.

(f) *Property control records.* The Contractor shall maintain adequate property control records of all special tooling in accordance with its normal industrial practice. The records shall be made available for Government inspection at all reasonable times. To the extent practicable, the Contractor shall identify all special tooling subject to this clause with an appropriate stamp, tag, or other mark.

(g) *Maintenance.* The Contractor shall take all reasonable steps necessary to maintain the identity and existing condition of usable items of special tooling from the date such items are no longer needed by the Contractor until final disposition under paragraph (i) of this clause. These maintenance requirements do not apply to those items designated by the Contracting Officer for disposal as scrap or identified as of no further interest to the Government under paragraph (i)(4) of this clause. The Contractor is not required to keep unneeded items of special tooling in place.

(h) **Final list of special tooling.** When all or a substantial part of the work under this contract is completed or terminated, the Contractor shall furnish the Contracting Officer a final list of special tooling with the same information as required for the initial list under paragraph (c) of this clause. The final list shall include all items not previously reported under paragraph (c). The Contracting Officer may provide a written waiver of this requirement or grant an extension. The requirement may be extended until the completion of this contract together with the completion of other contracts and subcontracts authorizing the use of the special tooling under paragraph (b) of this clause. Special tooling that has become obsolete as a result of changes in design or specification need not be reported except as provided for in paragraph (d).

(i) **Disposition instructions.** The Contracting Officer shall provide the Contractor with disposition instructions for special tooling identified in a list or notice submitted under paragraphs (c), (d), or (h) of this clause. The instructions shall be provided within 90 days of receipt of the list or notice, unless the period is extended by mutual agreement. The Contracting Officer may direct disposition by any of the methods listed in subparagraphs (1) through (4) of this paragraph, or a combination of such methods. Any failure of the Contracting Officer to provide specific instructions within the 90 day period shall be construed as direction under subparagraph (1)(3).

(1) The Contracting Officer shall give the Contractor a list specifying the products, parts, or services for which the Government may require special tooling and request the Contractor to transfer title (to the extent not previously transferred under any other clause of this contract) and deliver to the Government all usable items of special tooling that were designed for or used in the production or performance of such products, parts, or services and that were on hand when such production or performance ceased.

(2) The Contracting Officer may accept or reject any offer made by the Contractor under paragraph (e) of this clause to retain items of special tooling or may request further negotiation of the offer. The Contractor agrees to enter into the negotiations in good faith. The net proceeds from the Contracting Officer's acceptance of the Contractor's retention offer shall either be deducted from amounts due the Contractor under this contract or shall be otherwise paid to the Government as directed by the Contracting Officer.

(3) The Contracting Officer may direct the Contractor to sell, or dispose of as scrap, for the account of the Government, any special tooling reported by the Contractor under this clause. The net proceeds of all sales shall either be deducted from amounts due the Contractor under this contract or shall be otherwise paid to the Government as

directed by the Contracting Officer. To the extent that the Contractor incurs any costs occasioned by compliance with such directions, for which it is not otherwise compensated, the contract price shall be equitably adjusted in accordance with the Changes clause of this contract.

(4) The Contracting Officer may furnish the Contractor with a statement disclaiming further Government interest or rights in any of the special tooling listed.

(j) **Storage or shipment.** The Contractor shall promptly transfer to the Government title to the special tooling specified by the Contracting Officer and arrange for either the shipment or the storage of such tooling in accordance with the final disposition instructions in subparagraph (i)(1) of this clause. Tooling to be shipped shall be properly packaged, packed, and marked in accordance with the directions of the Contracting Officer. Tooling to be stored shall be stored pursuant to a storage agreement between the Government and the Contractor, and as directed by the Contracting Officer. Tooling shipped or stored shall be accompanied by operation sheets or other appropriate data necessary to show the manufacturing operations or processes for which the items were used or designed. To the extent that the Contractor incurs costs for authorized storage or shipment under this paragraph and not otherwise compensated for, the contract price shall be equitably adjusted in accordance with the Changes clause of this contract.

(k) **Subcontract provisions.** In order to perform this contract, the Contractor may place subcontracts (including purchase orders) involving the use of special tooling. If the full cost of the tooling is charged to those subcontracts, the Contractor agrees to include in the subcontracts appropriate provisions to obtain Government rights comparable to the rights of the Government under this clause (unless the Contractor and the Contracting Officer agree that such rights are not of substantial interest to the Government). The Contractor agrees to exercise such rights for the benefit of the Government as directed by the Contracting Officer.

(End of clause)

Alternate I (Apr 1984). If the Government does not intend to acquire special tooling from subcontractors and an appropriate price reduction is obtained, delete paragraph (k) from the basic clause.
